Birthday Packages – Middle of the Month

**Grade 1
Aug/Sept**

Let's name the months of the year beginning with January. Let's do it again and stop on our new month, _____. How many months did we name?

How many birthdays do we have this month? Is that the same number of birthdays as in _____?

Can you find a month that has *more* birthday tags than the number on this month's package? Are there any months with fewer birthdays?

Which birthday package has the most tags? The least?

Are there any months with no birthdays or zero birthdays?

If the 1st of the month is in this space on the Calendar, in which space do you think _____ will need to place her tag to mark her birthday, if her birthday is _____.

Can you find two "next-door" months with a total of ____ birthdays?
