Question Starter Card - Day of School 7. Adapt to any nearby Day of School. See *Every Day Counts,* 2005 edition, page 25 for questions to add to card.

Counting Tape & Daily Decimal - Beginning of the Month	Grade 5 AUG or SEPT

Into how many inch squares has the whole Decimal Square been divided? (100)

How can we prove there are 100 at a glance?

What fraction of the whole square is shaded? (7 out of 100, 7 hundredths)

How many different ways can we record this fraction or portion? (see photo)

Can someone explain the meaning of 7 percent? (seven out of every hundred)

If you can earn 7% interest on $100 in one year, how much could you earn on $200?

Can you please explain to your neighbor how you got your answer? Did you think about it the same away or in different ways? Would someone share with the class?
