

Question Starter Card – See *Every Day Counts* 2005 TE, p. 35, for more questions to add to card.

Daily Depositor – Beginning of the Month

**Grade K
OCTOBER
or Month 2**

How many rocks are in our Depositor today? How do we write this number?

If we take ___ rock(s) out of the pocket, how many will there be?

If we add ___ rock(s) to our pocket, how many will there be?

How many more rocks do we need on the white side of our Depositor board to get our next group of ten?

I've spilled out all the rocks from our Depositor on the rug for you to look at. What do you notice about these rocks? (Some are big; They are different colors; Some are polished; and so on.)

Let's sort them by (polished) and (not polished). Which group has more? If we line them up 1 to 1, across from one another, how many more ___ than ___ do you see?
