

Calendar – Beginning of the Month

Grade 1
OCTOBER
or Month 2

What is the name of our new month? What was last month's name?

Can we say the days of the week starting with Sunday?

How do we say today's date?

What do you see on the Calendar so far in October?

Do we have *fewer* yellow rectangles or red circles so far? How many rectangles do you see? How are they alike? How are they different?

What do you think the number on tomorrow's piece will be? How do you know?

What date came just before Oct 4th? Just after the 4th?

How many more days until our next birthday?
