

**Ten Grids – Day of School 30 (or later)**

**Grade 1  
October or  
Month 2**

---

Let's look at our Ten Grids for 6 to 9. When we see 5 blue dots, how many more red dots do we need to get to 6? To get to 7? To get to 8? To get to 9?

---

Using all five fingers on one hand and two fingers on your other hand, show me the number 7. Can you show me 8 this way? Can you show me 6? Can you show me 9?

---

Can you tell say a "five plus" fact for 6? For 7? For 8? For 9?

---

Let's play "Quick As You Can". I will show you one of our Ten Grid cards. Try to figure out how many dots are on the card as quick as you can. Put your finger on your lips to remember not to tell your answer until I say, "What's the total?" Then everyone can tell the answer.
