

Graph – Middle of the Month

**Grade K
OCTOBER
or Month 2**

What do we know when we look at our graph today?

How have the results changed?

Which choice has the most markers now? The least markers now?

How many fewer children chose ___ than ___?

How many more children chose ___ than ___?

How many markers are up on the Graph so far? Would someone be willing to show us how you got your answer?

Which choice do you think will be ahead when we add markers next time?
