

## **Clock – Day of School 45**

**Grade 1  
NOVEMBER  
or Month 3**

---

How many minutes have we colored in on our Clock so far? (45)

---

How can we check? (Count by fives)

---

How many more minutes are left on the minute hand's journey around the clock?

---

If we go back 1 minute where will we be? 2 minutes? 5 minutes?

---

If we move ahead 5 minutes where will we be?

---

We'll play Catch the Clock again today. Can you catch our classroom clock with the minute hand pointing to 45 minutes past the hour? You can raise your hand, and we'll stop what we're doing to read the clock together.
