

## **Totally Ten – Day of School 45**

**Grade 1  
NOVEMBER  
or Month 3**

---

When we add today's dot, how many dots will we have? (45) How do we show this number with our digit cards? How would we write this number? (4 groups of ten and 5 extra ones.)

---

How many more do we need to get our next full ten? (5) How many more days of school until Day 50? (5 days)

---

What number will we have in two more school days? (47) Three more school days? (48) Four more school days? (49)

---

If we take away ten, what number will we see? (35) If we add ten, what number will we have? (55)

---

How many fives are in today's number? (9) How can we use our Every Day Clock to check? (The 9 is at the mark for 45 minutes or 9 groups of 5 minutes.)

---
