

Calendar – Middle of the Month

**Grade 1
NOVEMBER
or Month 3**

What is the name for today? What was the day of the week yesterday?

If today is Friday, November ____, what will tomorrow be?

What will be the color and shape of tomorrow's piece? Can someone tell us how you knew it would be a green triangle?

What color and shape will we see on the next birthday? How did you figure that out?

If we act out the pattern, what motion shall we do for each green triangle, and what motion shall we do for each orange square?
