

## **Measurement – Middle of the Month**

**Grade 1  
NOVEMBER  
or Month 3**

---

How many inches are within one foot? (12) How can you prove there are twelve?

---

How many inches have we colored in so far? How do you know?

---

How many feet have we colored in so far? (1) How many extra inches? (2)

---

How many more inches will we need to color in to finish our second foot?

---

Would someone be willing to choose something from our collection of objects that is shorter than one foot? Let's guess and check its length? How many of you think the \_\_\_\_ is shorter than 6 inches? Longer than 6 inches? Equal to 6 inches?

---

If we use our tape to measure your shoe, how many inches long do you think your shoe will be? We'll draw \_\_\_\_ names to see who gets to measure their shoe today.

---
