

Question Starter Card

Calendar – Middle of the Month

**Grade 3
DECEMBER
or Month 4**

What color, shape, and number patterns have you noticed on this month's calendar so far?

What makes a trapezoid a trapezoid? (4 sides with 2 sides parallel and two not parallel)

What do you notice about each pair of next-door neighbor trapezoids?

What do you notice about the numbers on the yellow hexagons?

What is special about the pieces with the stars? (They are the even numbered multiples of 3; they're the multiples of 6; they're every other yellow hexagon)

What will the calendar piece look like two weeks from today? How did you get your answer?
