

Calendar – End of the Month

Grade K
NOVEMBER
or Month 3

What have you noticed about our Calendar this month?

Does anyone see another *pattern* to show us?

What number comes just *after* the red number ___? What number comes just *before* the red number ___?

How are the red squares and the other red rectangles alike? What makes squares belong to the rectangle family? (four square corners)

What red number is *between* 7 and 9? *Between* 17 and 19? *Between* 27 and 29?

Can we whisper the purple numbers and then clap as we say the red numbers out loud? (1, **2**, 3, **4**, 5, **6**, 7, **8**, 9, **10**, 11, **12**, 13, **14**, 15, **16**, 17, **18**, 19, **20**, 21, **22**, 23, **24**, 25, **26**, 27, **28**, 29, **30**.) Now let's just say the red numbers.

If *today* is _____, November 30th, the very last day in November, what day of the week will tomorrow be, the first day of December?
