

EDCONLINE FEATURES

- **Easy Access:** our online support is available from anywhere with an internet connection.
- **Expert Guidance:** tailored consults with coauthor Jan Gillespie via video, phone, & email.
- **Team Collaboration:** grade level assistance for new hires or grade level changes.
- **Time Saving Solutions:** detailed photos, tips and question cards speed set up & jumpstart student discussions.

 **Counting Tape & Daily Decimal - Day of School 14** (Adapt to any nearby day.) Grade 5
AUG or
SEPT

What fraction of the whole square is shaded? (14 out of 100 or 14 hundredths)

How many different ways can we record this fraction or portion? (see photo)

How many tenths are within 14 hundredths? (one tenth)

When we write 14 hundredths as a decimal (0.14), what is the value of each digit? (zero or no wholes, one tenth, four hundredths)

Can you please explain to your neighbor how 14 hundredths can be the same as one tenth and four extra hundredths? Would someone share with the class?

Which is greater 0.1 or 0.14? (0.14, since it is 4 more hundredths than a tenth)

Which will be greater 0.2 or 0.14? (0.2, since it will be worth 20 hundredths, which is greater than 14 hundredths; or 0.2, since it is 2 tenths and the number 0.14 only has 1 tenth within it, etc.)
